# We are upgrading infrastructure to provide better service to your community.

Clifton Gate Station Upgrade Project | September 2024

Dear Neighbor,

We are writing to provide an update on the construction within our Clifton Gate Station located on Bay Street and Willow Avenue in Staten Island, NY.

As part of the final stages of our construction project, there are two key activities that must be performed. First, crews will perform quality assurance tests of the upgraded infrastructure. Followed by tie in activities which connects the upgraded infrastructure to the existing infrastructure. For your safety, please do not enter work zones and be mindful of construction during and after work hours.

## Upcoming Important Activities:

**Week of September 29<sup>th</sup>, 2024: 24-Hour crew presence for quality assurance testing.** The community may experience a humming noise from generators.

**October 11<sup>th</sup> through October 14<sup>th</sup>, extended work hours and weekend work, 7AM to 8PM\*, for tie in activities mentioned above.** Neighbors can expect intermittent road closures on Bay Street and Willow Avenue. Traffic flaggers will be on-site to assist local traffic.

Once these activities are completed, crews will begin to backfill and restore the roadway and/or sidewalks on Bay Street and Willow Avenue to NYC Department of Transportation (DOT) specifications. **This project remains on track to be completed in Fall 2024.**

Thank you for your continued patience and understanding as we work to complete our Clifton Gate Station Upgrade Project. For questions and concerns, please reach out to our project engagement team below.

*\*Schedule is subject to change due to weather and extended work may be necessary.*

Sincerely,

## Project Engagement Team
