Learn More: Mortimer – Pannell 24/25 Rebuild Project

National Grid's Mortimer – Pannell 24/25 Rebuild Project will rebuild approximately 16 miles of aging 115kV electric transmission lines through the towns of Brighton, Henrietta, Fairport, Pittsford, Perinton and the Village of Pittsford in Monroe County, New York. Once constructed, the newly rebuilt transmission line will provide enhanced electric reliability for the Western New York region.

National Grid is hosting a virtual information session for the Mortimer – Pannell 24/25 Rebuild Project. The session will include a presentation followed by a question-and-answer session. To join the session, scan the QR code or visit:
