Update on work in your community

NL-05 Regulator Station Rebuild- Clark Avenue

May 07, 2024

Dear Neighbor,

Thank you for your continued patience as we continue upgrading our existing regulator station on Clark Avenue. We are writing to update you regarding ongoing work in your neighbourhood.

Upcoming Activities

Additional heavy machinery is expected on Clark Avenue during week of May 13th. The crane (pictured below for reference) will be on site for one working day: on or around, **Tuesday, May 14th**. During this time, access to the road will be closed for the entirety of the work. Heavy activity and noise is to be expected.

After critical lifts are complete, crews will continue to upgrade and weld infrastructure within excavations. Following welding activities, crews will perform multi-day quality assurance testing. The project remains on track to be completed this fall 2024.

As always, our crews will work diligently to minimize any impacts to the community. For your safety, please do not enter work zones and be mindful of work zones during and after construction hours. Thank you for your cooperation and understanding as we continue to move towards completing these important upgrades in your neighborhood.

For questions or more information please contact us at the number or email below.
