

Windsor Terrace Upgrade Project

Brooklyn, NY | May 2024

Dear Neighbor,

We would like to inform you of upcoming work in your neighborhood. Energy plays a critical role in our day-to-day lives and helps ensure the well-being of our community. That's why we're investing in infrastructure upgrades in your area.

Project details:

This project will replace an existing regulator station and associated infrastructure, with an upgraded station in the sidewalk of Machate Circle. Once complete, the project will improve system integrity and reliability in your area. We anticipate completing the station installation this year and will return in 2025 for associated work.

What to expect during construction:

- **Marking out** of underground utilities
- **Excavations** in sidewalk near Machete Circle, and work inside the regulator station.
- **Temporary changes** to street parking during work hours.
- **Traffic pattern changes.** Street traffic will be open during construction, and a flagger will be onsite during work hours. Please be aware of construction traffic signs and cones.
- **Street plates.** The project site will be secured and plated during non-work hours.
- **No interruption to service** to our customers.
- **Restoration** of disturbed areas.
- **Direct contact with our Outreach Team.** If you have questions or concerns, please call or email our team
