

Are you offering the EV charging your customers need?

Add EV charging stations to your building plans.

Upstate New York businesses and municipalities are partnering with local contractors to install EV charging stations as an amenity to their customers and communities.

You can make EV charging a part of your next projects by taking advantage of National Grid’s **EV Charging Station Program** — an initiative that provides up to 100% funding for EV charging infrastructure.

We also offer fleet assessments to help transition fleets of all sizes to electric fleets.

It’s time to Take Charge — Install EV charging stations today.
