

MA EBT Minutes  
10/18/17  
In Person

Attendees: NGRID, Eversource (W, E, N), Constellation, Hansen, Direct, Customized, Liberty, ECI, Latitude, Liberty U, Mint, NAESB, IGS, Ambit, Unitil, ESG

**Review of July minutes**

**Update from NGRID issue with Name Key on 867 Historical Usage**

- Escalated - on target for 10/31 fix deploy

**CC 019 – LDC Initiated Reinstatements**

- Eversource - East and West active but missing ASI02 Code. RESOLVED
- NGRID-on hold pending issue for 2day/4day lead time
- Unitil - targeted for 2018

**CC 024 – Net Meter Indicator (REF\*KY)**

- Eversource - sending in PRT, will be REFKY
- NGRID - Implemented
- Unitil - included in new billing system

**CC 025 – Net Metering Indicator (REF\*KY) on 810**

- Eversource submitted so they can include with updates to 814 and 867H from CC 024. In development. Targeted for Q1 2018
- NGRID – Optional
- Unitil – Optional

**Unitil Conversion:**

- Conversion completed July 5, 2017.
- Minor issues – POR discount amount and cancel/rebill discount amount showing as 0. Fix expected soon

**Review of rejection codes used by utilities**

- Instead of A13 implement new codes
- Review if sending codes not in IG and submit CC.

**New Business**

- NGRID (Sergio Smiley) – meter exchange issue where wrong segment is sent (NM1MQ instead of REFMG). Fix targeted for 11/40 and will include REF\*MG and REF\*46 segments.
- Candace - DEB - question regarding Eversource combining IT b/w NU & Nstar.
  - Daryush: Streamlining to operate the same but no system conversion/merge. Still 2 separate CIS systems
- Kim Wall - Unitil not sending invoice/usage for 0 bills.
  - Dan, are sending 810s for most cases with conversion. Some exceptions under review.
- NGRID not sending Drop transactions consistently.

- If EDI initiated then they are sent but if customer calls in there is no mechanism so its manual. Working on having billing system linked so EDI goes out.
- What does it mean when there is no usage and explanation is CoGen. Customer generated more than they use.
  - Segue into EDI showing details of gen vs consumption.  
Manual billed, spreadsheets via email
  - Utilities to road map how they convey CoGen data to the supplier
  - Implement 867MU. - down the road.  
How does this work in other markets.  
- Meter Data Mgmt connected to Billing system
- Juli Griffiths - RI Bill passed for Aggregation, POR bill pending.

Next Meeting TBD.  
866-783-4848; Pass Code #7619673
