Eversource – pending deployment weekend of 6/17 for Legacy NU (WMECO, CLP, PSNH)

NGRID - 2day/4day issue still be worked on

(allowed early reads and would hold until actual published read date but no longer holding)

Ex: 5th of month = scheduled but could be read as early as the 1st

**CC 024 – Net Meter Indicator (REF\*KY) – 814E, C and 867**

Eversource (legacy NU) – still testing

Eversource East (old NSTAR uses REF\*PRT)

**CC 025 – Net Metering Indicator (REF\*KY) on 810**

Still testing. Include NETMETER instead of Y/YES or N/No

**CC027 – 814E REF\*7G new REF02 Code CAB**

Eversouce only– implemented.

**CC028 – 814C REF\*7G new REF02 Code C14**

Eversource only – implemented. Only accepting 1 change per account per day

CC029 – 810 REF\*QY gray box

Restore info from previous IG versions.

Kim Wall raised issue that this field is not truly being used for Life Support indicator but rather Primary Metering Indicator.

Legacy NU does use as Primary Metering Indicator

NGRID uses for Life Support

Eversource East – to research

Liberty – to research

Unitil – to research

Utilities to report how field is used to Big Data Energy Mary Do and Hansen Kim Wall so CC can be updated.

**Review of rejection codes used by utilities**

- Eversource should be good with submissions for CC027 and 028
- Other utilities to review

**NGRID meter exchange issue where wrong segment is sent**

Per Sergio this is resolved. Will be removed from future agendas.

**Unitil Master Outdoor Light processing:** targeting Q3. Indicator on 810

**CC to add Primary Indicator – related to CC029 REF\*QY**

**NGRID Drops:** customer initiates the drop is manual and not triggers 814D. In progress. Working to make sure manual (customer initiated) triggers appropriate 814.

**Unitil not sending invoice/usage for 0 bills.** Are being sent for majority. Small amount are not going out, that is **Adminitrak** – Eversource East is phasing out and will go to email box like Legacy NU. Continue to use Adminitrak until further notice.
