

MA EBT Minutes  
8/7/18

Attendees: Eversource, ESG, Engie, Direct Energy Business, EC Info Systems, Constellation, Hansen, ATMS, Customized, Liberty Utilities, Unutil, Marketwise, IGS, Starion, Ambit, Direct Energy Services

- Eversource’s implementation of CC 025, 027, 028:
  - Implemented 6/27 (025 - 810 REFKY; 027 new REF02 Code CAB to REF\*7G on 814E responses; 028 new REF02 Code C14 to REF\*7G on 814C responses)
- CC029 – updates from utilities
  - life support vs Primary Metering Indicator
  - NGRID uses as Life Support. What do they use for Primary Metering Indicator?
  - Eversource uses as Primary Metering Indicator (need to reduce usage by 2% on supplier side)
  - Unutil REFQY = Primary Metering Indicator (already reduce usage before sending to market - Caitlin to confirm)
  - Liberty Utilities = will research
  - Eversource East (NSTAR)
  - Eversource West, North, CT (2% reduction needed on supplier side for Dual, already calculated for Rate Ready)
  - Kim proposes removing Life Support verbiage from segment.
- Review of Rejection Codes used by utilities
  - Not discussed
- NGRID meter exchange 814C – still sending invalid reason codes. –
  - NGRID not present on call
- NGRID manual drops
  - NGRID not present on call
- Moving to Web Conferencing
  - Moving to Web Conferencing. Suggested by Tom Dougherty -Marketwise. Eversource, ESG, Hansen, Direct all approve.
